Constants

Oqmk

Whats the appeal to this?

Oqmk

A feature where students can specify the times they are unavailable due to personal or work commitments.

Oqmk

Students may not input their availability accurately, leading to scheduling conflicts later.

Oqmk

Advisors can give their opinion on how they feel about the new system

Oqmk

Time Constants

Oqmk

Color-Coded Schedule

Oqmk

The system should only display class options that do not conflict with the student's entered availability, filtering out irrelevant class times.

Oqmk

Integrating the availability-based scheduling system with the school's current course catalog and registration system.

Oqmk

Students can give their opinion on how they feel about the new system

Oqmk

Availability Constants

Oqmk

Color Theme

Oqmk

A feature that automatically alerts students to potential scheduling conflicts when they attempt to select conflicting classes.

Oqmk

Class times and availability can change as students register, potentially affecting previously filtered results.

Oqmk

Registration Status Constants

Oqmk

Simple, intuitive design that allows students to easily input their available times and view only the relevant class options.

Oqmk

Getting students to adopt and regularly use the new scheduling system.

Oqmk

Conflict Check Constants

Oqmk

The ability for students to update their availability or class choices easily without redoing the entire process.

Oqmk

Web-Based Application
